Scientific Industries Expands its Vortex-Genie® Product Line

Scientific Industries, Inc. (OTCBB-SCND), July 18, 2008 – Scientific Industries, a leader in the design and production of shakers and vortex mixers, including the world-renowned Vortex-Genie, today announced the market launch of the Multi Vortex-Genie®. The Multi Vortex-Genie is a heavy duty, large capacity multi-vessel vortex mixer designed to shake and vortex a variety of tubes, cylinders, flasks and beakers.

The new product incorporates digital control and display of speed and time for reproducibility and accuracy, with true speed display capable of a variety of applications in research laboratories, wherever protocols call for shaking, mixing, or vortexing. The Multi Vortex-Genie is being marketed primarily through the Company's extensive network of laboratory equipment dealers all over the world.

About Scientific Industries

Scientific Industries designs, manufactures, and markets a variety of laboratory equipment, including the world-renowned Vortex-Genie® 2 Mixer, and since November 2006 produces and sells customized catalyst research instruments. Scientific Industries' products are generally used for research purposes in laboratories of universities, hospitals, pharmaceutical companies, chemical companies, and medical device manufacturers.
