FOR IMMEDIATE RELEASE (Bohemia, NY, October 6, 2006)

SCIENTIFIC INDUSTRIES EXPANDS ITS VORTEX-GENIE PRODUCT LINE

Scientific Industries Inc. (OTCBB-SCND), October 6, 2006 - Scientific Industries proudly announces the introduction of the Digital Vortex-Genie[®] 2 mixer. The Digital Vortex-Genie 2 offers digital control and display of both time and speed for precise and reproducible operation. The product, which will complement the Company's existing vortex mixer line, accepts the wide range of accessories currently available for the original Vortex-Genie 2 mixer.

The Digital Vortex-Genie 2 may be used for a variety of applications within the life sciences industry, and may be especially useful for those applications requiring precise mixing speeds and/or times.

About Scientific Industries

Scientific Industries manufactures and markets laboratory equipment, including the world-renowned Vortex-Genie[®] 2 Mixer. Scientific Industries' products are used by research laboratories, clinics, pharmaceutical manufacturers, medical device manufacturers, and other industries.

"Statements made in this press release that relate to future events, performance or financial results of the Company are forward-looking statements which involve uncertainties that could cause actual events, performance or results to materially differ. The Company undertakes no obligation to update any of these statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as to the date hereof. Accordingly, any forward-looking statement should be read in conjunction with the additional information about risks and uncertainties set forth in the Company's Securities and Exchange Commission reports, including our annual report on Form 10-KSB."
