FOR IMMEDIATE RELEASE (Bohemia, NY, October 19, 2009)

### **Scientific Industries Launches the Orbital-Genie**

October 19, 2009 - Scientific Industries Inc. (OTCBB-SCND), a leader in the design and production of shakers and vortex mixers, including the world-renowned Vortex-Genie, today announced the market launch of the new Orbital-Genie™. The Orbital-Genie is a heavy duty, large capacity orbital shaker designed to shake and mix, using an orbital motion, a variety of laboratory vessels such as flasks, bottles, and beakers.

The new product is available in three different versions depending on the preferred vessel platform and offers an extensive array of accessories. Each version is fully programmable including speed and time and is ideal for a variety of shaking and mixing applications in research laboratories. The marketing of the Orbital-Genie is under the direction of the Company's new sales manager and is being made available nationally and internationally through the Company's extensive network of laboratory equipment distributors.

#### **About Scientific Industries**

Scientific Industries designs, manufactures, and markets a variety of laboratory equipment, including the world-renowned Vortex-Genie® Mixer, and produces and sells customized catalyst research instruments. Scientific Industries' products are generally used for research purposes in laboratories of universities, hospitals, pharmaceutical companies, chemical companies, and medical device manufacturers.
