Bohemia, New York 11716

FOR IMMEDIATE RELEASE (Bohemia, NY, September 3, 2004)

### **Scientific Industries Announces The Launch Of MicroPlate Genie Mixer**

Scientific Industries Inc. (OTCBB:SCND), September 3, 2004 - Scientific Industries proudly announces the introduction of the MicroPlate Genie™ single-position microplate mixer. The MicroPlate Genie offers a small mixing orbit and variable mixing speeds for complete mixing in every well of a microplate. With few exceptions, almost any type of microplate may be used. In addition, an integrated timer allows for hands-free operation.

The MicroPlate Genie may be used for a variety of applications in molecular biology and immunology laboratories, or for any application that requires thorough and consistent microplate mixing.

#### **About Scientific Industries**

Scientific Industries manufactures and markets laboratory equipment, including the world-renowned Vortex-Genie® 2 Mixer. Scientific Industries' products are used by research laboratories, clinics, pharmaceutical manufacturers, medical device manufacturers, and other industries.

*“Statements made in this press release that relate to future events, performance or financial results of the Company are forward-looking statements which involve uncertainties that could cause actual events, performance or results to materially differ. The Company undertakes no obligation to update any of these statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as to the date hereof. Accordingly, any forward-looking statement should be read in conjunction with the additional information about risks and uncertainties set forth in the Company’s Securities and Exchange Commission reports, including our annual report on Form 10-KSB.”*
